we smart

IoT Platform

A global solution for
monitoring, analyzing and
predicting energy and IOT
data based on data science.

WeSmart Platform

Collaborative IOT data platform

Easy set up

Manage Connected Devices

Sensor Map

Bill Management

Customizable Dashboards

Create and Share Reports

Control your company's energy consumption
and air quality in real-time

www.wesmart.com

WeSmart Data Science

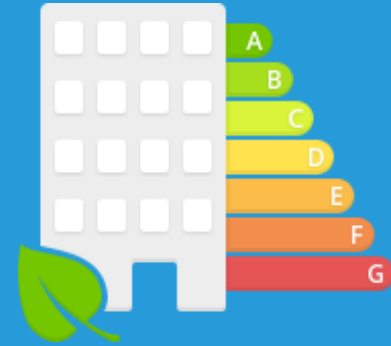

IOT Data Collection

Leverage different protocols to collect IOT device data including LoRA, GPRS, SigFox for data acquisition.

Machine Learning

Implement data science algorithms in R, Python, MatLab, combining sensor data with other data sources.

Energy Data Management

Deploy WeSmart EMS platform to track actions and progress by involving employees and management.

THE FUTURE OF MOBILITY & SUPPLY CHAIN IS YOU!
